Further, the Hon'ble Commission vide its order dated 02.03.2020 has directed the licensees to once again approach those multi-storied buildings/societies, who have not responded to earlier correspondences, for giving their consent. Hon'ble Commission has also directed that unless it is confirmed by the RWA/AOA majority resolution that single point connection is being retained, it will be considered that conversion to multi-point connection is to be done. Now, therefore, in aforesaid order of Hon'ble Commission, it is notified that unless AOA decides to retain the single point connection through a majority resolution and communicated the same to NPCL within 30 days from the date of this letter, it will be considered that your society has opted for multi-point connection and appropriate action will be taken accordingly.

**In this regard, AOA GC12 has taken cognizance of the said notice and did meeting with flat owners & residents of GC12 and taken consent via email as well as in person (list of which is attached at Annexure-I for ready reference).**
